

## 101 Freshman Guidance Tips 😊

1. Computer Science is a great Major. Try to learn everything and master it, not for marks but for your upcoming Career.
2. Today you start writing the First line in your CV. So, Learn How to Learn. Unlike school, University has no books, you cannot get grades by only memorizing without understanding. You need to understand, search, and learn from different resources not only slides. Let Google be your best friend 😊
3. Never Give up on yourself. It is normal to feel lost in the beginning, it is normal to find that you do not know many things. But never be shy to ask! We are here to help and guide you.
4. Learn to manage your time. There will sometimes many assignments or quizzes, you need to manage your time to do them and don't be late. Start as early as you can.
5. The GPA is Cumulative, So try to get the best GPA is the first year because it's the easiest year and maintaining a Good GPA is easier than improving it then.
6. TAs have office hours, so if you need help or have questions you can send them an email to arrange a meeting or go to them in the office hours which they announce. (Just don't send it on Fridays 😊 )
7. Exceuses are valid one week only after the TA receive it officially through email.
8. Each Lab/Tutorial has a grade, you must attend and do the task to get this grade.
9. You must attend your lab and tutorial only in your timeslot. It's not allowed to switch labs or tutorials. Otherwise, you will not take the grade.
